Birthday Parties

Have an extra special birthday at the International Centre for Birds of Prey, children or adults we don't mind and welcome you all!!

On your arrival at the Centre there will be an introductory welcome and this will be followed by a short guided tour of some of the birds. The guests will watch the nearest flying demonstration to their arrival time (see website for summer and winter flying times) the birthday person will have their name announced at the demonstration, if they are happy with that. After the demonstration or later in the day, depending on timings, the birthday person will have the chance to handle a bird with one of the bird staff. Photographs may be taken with pleasure, please remember that under the Data Protection Act, permission must be granted by parents for photos of children.

The rest of the day can be spent in our grounds, viewing the rest of the collection, walking through the grounds, or having games in the field. Please remember we need the grounds to be quiet and vacated during the three daily demonstrations. There is a play area that can be used by younger children.

We like to provide the birthday tea..... saves you the bother.
